Uplifting your belief
in the power of
human connection.

Psychology Course

Clarify the human mind with "science"

Students will develop a scientific understanding of the human mind and behavior, and develop the expertise to play an active role in society.

Connecting to society through practical learning

Students will study a wide range of topics, from basic psychology to clinical psychology, developmental and educational psychology, and psychology in the social and industrial fields, and deepen their learning that is directly connected to the real world through practical practice and fieldwork.

Corresponding to obtaining the national qualification "Certified Psychologist"*

We have a certified psychologist curriculum that allows students to aim for a national qualification in psychology after graduation. It opens up a path to active activity in a wide range of fields such as healthcare, education, welfare, and industry.

(*After graduating from university, you need to go on to graduate school)
